

Summer 1 Newsletter Year 2

Welcome back to the last term of Year 2! We hope you all had a relaxing Easter holidays and are settling back into the school routine.

Topic

This half term, we will become Beachcombers and visit the beach to experience the sights, sounds and smells of the seashore and explore rock pools to find living and non-living things. At the end of the project, we'll decide how we should look after the coastal environment and how the beach can be kept clean.

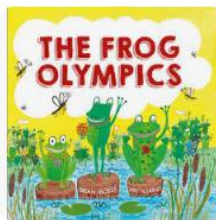

Art

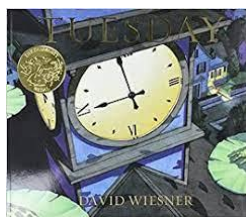

During this half term we will have a two week art focus. The children will be focusing on joining materials in a variety of ways. We will use sketchbooks to closely observe and sketch real objects and scenes. We will create a mixed media collage by exploring a variety of malleable materials.

Literacy

Please continue to read at home with your child, focussing on comprehension, asking them questions about what they have read and discussions about the book.

Our first text is Frog Olympics. This is a poetry book and it will help us to learn rhythm and rhyme. We will be using it to help us perform poetry with appropriate intonation, body language and expression.

Our second text is Tuesday by David Wiesner. The book is very different to others we have looked at so far in Year 2 – there are no words! The pictures show some very strange happenings... and we will use these as inspiration for writing our own newspaper reports, learning about the features we need to include. Please don't share this book with the children in advance as we would like to keep this as a bit of a surprise!

Teach Handwriting

We are continuing to focus on handwriting and presentation this term, with a big focus on joining our handwriting more often. If you want to see some of the handwriting resources, they are freely available at teachhandwriting.co.uk

Maths This half term we will be focussing on statistics and measurements. In statistics, we will be learning about tally charts, block diagrams and tables and how to interpret them. When learning about measurements, we will be learning how to measure mass, capacity and temperature.

PE

Just a reminder that PE days this half term are as follows:

Tuesday and Wednesday

RE

The key focus of this half term will be on the religion of Islam. We will continue to look at how Muslims live.

This half term we would also like to help prepare the children as much as possible for our **Sark trip** next half term! This trip involves lots of walking so please can you encourage time outside together and walks with family or friends in readiness for the trip.

Should you have any questions or queries please do not hesitate to ask.

Kind regards and best wishes,

Mrs Betts and Mr Welsh
